

FANS AND FRIENDS OF THIS GREAT GAME WE
CALL FASTBALL WELCOME TO OUR 6TH
ANNUAL ALL STAR CLASSIC EXTRAVAGANZA

STARS WE ARE AND NEW ONES WILL BE
BORN!!!

You are in for a treat . Sit back , relax and enjoy these young men demonstrate their pitching , throwing and hitting ability they've been working on for several years .You might be surprised by what they can do or accomplish . Here in an abbreviated fashion is the program for this afternoon and evening .

1. We will first start with the individual competitions : A] First we go with the most accurate outfielder-each contestant must throw a ball to first base than to third base and finally at home from a designated area in center field –you'll be taking part as fans in the judgement giving these candidates a 50 , 60 or 90 % accuracy –totalizing all three throws will give him his overall % (the record is by a North Shore all star in 2009 with an 89,7 % accuracy B] Next we make them run the base paths from home plate to home plate (the record still stands from the inaugural game in 2005 at Terry Fox in 9,67 seconds from our side Justin Nootchtai) C] Next we'll have the fastest pitcher and the record goes back to the inaugural one in 2006 when then Eric Abitong of the Cardinals was clocked at 68,9 miles per hour and finally we will have D] The

- home run derby (5 outs) not from a pitching machine but from a pitcher (they may chose their pitcher)
2. Special opening ceremony : Roger talks briefly of this most special 60th (jubilee anniversary) of fastball in GHreater Sudbury ; something about this all star classic ; introduction of players in their individual team uniforms ; introduction of our very special guest who will throw out the ceremonial first pitch
 3. The players put on their special all star t-shirt and the 9 inning game is on
 4. Meet us after if you desire at The Dog House for food and drinks as well as the presentation of awards from the all star festivities and our league awards .

THANKS FOR COMING OUT! THE PLAYERS AND MYSELF REALLY APPRECIATE IT !!
