

PLAYBALL ACADEMY CANADA

"Year-round baseball."

Until now that's something area baseball and softball players could only dream about. In just a few short months, however, that dream will become reality.

Welcome to Playball Academy Canada, a long-awaited state-of-the-art indoor facility built exclusively for baseball and softball players. Opening in December, the facility will boast a full-size turf infield, real dirt bullpens that can accommodate both baseball and softball pitchers, six batting cages and a well-stocked gym geared solely to baseball and

softball players.

Looking to work on specific hitting, fielding or pitching techniques? In addition to team and individual rental opportunities, Playball Academy Canada offers personal instruction by baseball and softball players boasting U.S. college and/or professional experience.

The facility, currently under construction, is located at 10 Executive Place in Kitchener, near Conestoga College and is easily accessible from Highway 401.

Bookings are now available for January 2015. To book or to seek further information contact General Manager **Trevor Nyp** at contact@playballacademycanada.ca.
